RELEVANT EXPERIENCE

WhiteChalk

Co-Founder | Dec 2022 - Current

- Spearheaded the establishment of Whitechalk, assembling a team of 6 professionals and successfully delivering over 15 tech projects to date.
- Directed the end-to-end management of projects, client relations, and product delivery, ensuring excellence and timely execution.
- Developed a SaaS product, teckle.io, overseeing every phase from conceptualization to launch, utilizing React, Next.js, TypeScript, TailwindCSS, Stripe, Node.js, Express.js, MongoDB, PostgreSQL, AWS, and Vercel.

Strata

Software Engineer | Nov 2021 - Current

- Engineered mobile applications for investors and partners, facilitating fractional investments in commercial real estate from inception to deployment.
- Implemented Over the Air Update technology, significantly reducing update times to immediate availability and bypassing traditional app store review delays.
- Established CI/CD pipelines with CircleCI, promoted code sharing using monorepo and enhanced both user and developer experiences through features like push notifications.
- Used React Native, React query, Firebase, Amplitude, Sentry, etc.

Brainstack Technologies

Software Engineer | Sept 2020 - Nov 2021

- Led the development of HealthSafe mobile and web applications from the ground up.
- Used React, React Native, TypeScript, Firebase, Node.js, Express.js, MongoDB, and AWS.

TekGeminus

Full Stack Intern | Jan 2020 - June 2020

- Independently developed and deployed the EBLWG web platform, utilizing React, React Native, Firebase, Node.js, Express.js, MongoDB, and AWS.
